Youth Poll: Propensity

General Military Propensity

By Gender

FPP9: In the next few years, how likely is it that you will be serving in the Military?

Response options: Definitely, Probably, Probably Not, Definitely Not

- Military propensity remained stable between Summer 2021 and Fall 2021, which remains the lowest point since 2007.

Note: Youth ages 16–21. Estimates are charted to precise values. Labels are rounded to the nearest whole percent.

General Military Propensity

By Race/Ethnicity

FPP9: In the next few years, how likely is it that you will be serving in the Military?

Response options: Definitely, Probably, Probably Not, Definitely Not

Note: Youth ages 16–21. Estimates are charted to precise values. Labels are rounded to the nearest whole percent.

Source: DoD Youth Poll

☐ = Significant change from previous poll

Note: Estimates for Black and Asian youth should be interpreted with caution because of relatively large margins of error.

Youth Poll: Economic Conditions

U.S. Military and Economic Conditions

Difficulty of Finding a Job

- In Fall 2021, youths' confidence in their ability to get a full-time job within their communities remained stable compared to Summer 2021.

How difficult is it for someone your age to get a full-time job in your community?

Note: Youth ages 16–21. Estimates are charted to precise values. Labels are rounded to the nearest whole percent.

☐ = Significant change from previous poll

Note: Estimates for Black and Asian youth should be interpreted with caution because of relatively large margins of error. EMP5: "How difficult is it for someone your age to get a full-time job in your community?"

Backup

Youth Poll Methodology and Sample

- Mail-based survey fielded from September 3, 2021, to February 28, 2022.
 - A series of five mailings were sent to eight different cohorts semimonthly that invited recipients to participate.
- Final Youth Poll Sample: 3,394 youths ages 16 through 24
 - 2,702 (80%) youths ages 16 through 21—the metrics presented herein focus on this age group.
 - 692 (20%) youths ages 22 through 24
- Weighted to reflect the general population on several dimensions:
 - Gender
 - Age
 - Race/Ethnicity
 - Educational attainment
 - Region
- Stratified Random Sample
- Note: Estimates are charted to precise values. Labels are rounded to the nearest whole percent.
- Note: Certain slides provide estimates by race/ethnicity.
 - The December 2010 effort was the first Youth Poll with a sufficiently large enough sample size to report estimates for Asian youth. Asian youth estimates are included only at the overall level and not by gender because of sample size restrictions. The effective sample size for Asian youth is small, and results should be interpreted cautiously.

Historical General Military Propensity

By Gender

FPP9: In the next few years, how likely is it that you will be serving in the Military?

Response options: Definitely, Probably, Probably Not, Definitely Not

Note: Youth ages 16–21. Estimates are charted to precise values. Labels are rounded to the nearest whole percent.
